Yarrow is honored by this opportunity to highlight the ancient Chinese principles of Feng Shui and the interrelationship of thinking with the result of peace as a "oneness" way of life.

*"Bringing the knowledge that peace begins in the heart of the individual is an auspicious opportunity," said Yarrow. "As each individual takes responsibility for every thought and action and realizes how those affect other human beings around the world, peace becomes a natural way of life."*

Yarrow practices the unique skills of personal accountability and personal responsibility driven by the "conscious" spirit in which she relates.

She is a contributing author to three anthologies: Conscious Entrepreneurs – A Radical New Approach to Purpose, Passion & Profit © 2008; The Spirit of Women Entrepreneurs – Real-Life Stories of Determination, Growth & Prosperity ©2007; and Loss, Grief & Healing © 2007.
